

“Our biggest concern was how to install a new system without effecting our day-to-day operations”

Our network of installers ensures **seamless implementation**

Whatever the installation or implementation challenge, our goal is to ensure that your transfer to a new system runs as smoothly as possible. We work closely with our installation partners to maintain the same high standards, regardless of the complexity or simplicity of the project.

Our commitment to delivering high quality professional installations is reflected in our global network of Certified Installers, investment in training and dedication to supporting customers all around the world.

For over 20 years the Premise Networks Division of Molex has manufactured comprehensive UTP, FTP and Optical Fibre cabling systems for the transmission of voice, data and video imaging signals.

As one of the original pioneers of structured cabling we have provided state-of-the-art cabling solutions to some of the largest organisations in the world.
